SEPTEMBER 1 DEADLINE

# Trai asks top regulators to apply whitelist norms

SUBHAYAN CHAKRABORTY  
New Delhi, 27 August

To tackle the problem of spam messages and calls, the Telecom Regulatory Authority of India (Trai) on Tuesday asked the Reserve Bank of India (RBI), various sector regulators, and government agencies to implement the mandatory whitelisting or registration of internet links, Android application packages (APKs) and call back numbers sent through text messages by September 1.

At a meeting of the joint committee of regulators (JCOR) convened by Trai, the telecom regulator urged upon the need for a joint effort to put a check on the problem of spam messages and calls, stressing that “the timeline fixed by Trai’s latest directions needs to be enforced.”

Trai had set the end of August as the deadline for telecom operators to stop all text messages containing unregistered URLs and APKs in a bid to curb rampant phishing attacks. URL is essentially the link for a website, or the address of a unique resource on the internet, while an APK is an executable file that contains all the data needed to install and run an Android app.

The decision is billed to have a major impact on curbing spam, and potential frauds given that many users unknowingly click on links that act as phishing tools for

**RBI, PFRDA, Irdai and Sebi officials were told joint effort was needed to check the problem of spam messages and calls**

data hackers.

But it has also sparked concerns that consumers of banks, financial institutions, and e-commerce companies may face interruptions in receiving service and transactional messages and especially one-time passwords (OTPs).

At present, the telcos get the headers and the templates from the businesses. However, now they will also require the content to be submitted. This will then be verified by the telcos and only then will be

sent to the customers.

The JCOR is a key inter-ministerial body set up in 2022 to examine regulatory implications in the digital age and put up a collective front against telecom spam and fraud. Tuesday’s meeting was attended by representatives from the RBI, Pension Fund Regulatory and Development Authority, Insurance Regulatory and Development Authority and Securities and Exchange Board of India.

Officials from the ministries of home affairs, corporate affairs, electronics and information technology, and the department of telecommunications were also present, Trai said in a statement. The meeting also saw Trai urge regulators to implement its other direction on migrating existing telemarketers making promotional calls to numbers in the 140 series, which have been allocated for all commercial purposes. Trai has mandated these numbers to also be migrated to the Digital Ledger Technology (DLT) platforms run by telecom service providers by September 30 for better monitoring and control.

On the other hand, the 160 series has been allocated exclusively for service and transactional calls, it said.

The telecom regulator also discussed its directions to telecom operators to strictly monitor and disconnect bulk connections owned by businesses if they engage in spam calls.

# KMP remuneration share in profit least in 7 years

The combined net profit of 151 companies sampled within the BSE 200 index climbed 22.3 per cent Y-o-Y to ₹6.07 trillion in FY24, compared to ₹4.96 trillion in FY23. This stands in contrast to a modest 9.3 per cent earnings growth in FY23.

The deceleration in executive remuneration helped ease the burden on corporate profitability. KMP compensation cumulatively accounted for 1.37 per cent of corporate profits in FY24, down from 1.61 per cent the previous year and a high of 2.87 per cent in FY20.

In fact, the ratio of KMP remuneration to corporate earnings in FY24 was the lowest in at least seven years. During FY19 to FY24, KMP compensation grew at a compound annual rate of 14.41 per cent, compared with an 18 per cent compound annual growth rate in corporate earnings.

A significant portion of executive pay is variable in the form of share in profits and commissions, making it sensitive to earnings performance. Deloitte India’s Executive Performance and Rewards Survey 2024 revealed that over 50 per cent of target compensation is pay-at-risk, with professional CEOs seeing 57 per cent of their compensation tied to performance compared with 47 per cent for promoter CEOs. According to the survey, average CEO compensation now stands at ₹13.8 crore, representing a 40 per cent increase com-

pared with pre-Covid-19 levels.

According to workforce consultant Adecco India, the slowdown in KMP compensation growth can be attributed to the increasing share of employee stock ownership plans (ESOPs) in overall CXO pay packages. “An increasing number of CXOs have taken compensation hikes in the form of ESOPs last year, rather than the cash component. This optically lowers the compensation growth,” noted Karthikeyan K, director of permanent recruitment, Adecco India. Its data suggests that CXO compensation, excluding ESOPs, grew by 6 per cent in FY24. However, some experts argue that top management’s overall compensation remains on a rapid upward trajectory.

“Anecdotal evidence suggests no real slowdown in CXO and promoter compensation, which continues to track earnings growth. The overall figures may be skewed by significant changes at a few companies,” said Amit Tandon, founder and managing director of Institutional Investor Advisory Services India Limited (iiAS), a proxy advisory firm. Notably, executive compensation growth in FY24 lagged the rise in overall employee expenses. The combined salary and wage bill of the sampled BSE 200 companies rose by 12.9 per cent Y-o-Y to ₹5.36 trillion in FY24, up from ₹4.81 trillion the previous year. Analysts,

however, caution against drawing direct comparisons between wage bill growth and KMP remuneration rise, as the number of KMP tends to remain stable over the short to medium term, while overall employee numbers continue to vary on a Y-o-Y basis. This means that while the increase in KMP compensation is driven primarily by higher pay for individuals, a company’s wage bill can expand even if individual employee salaries remain stagnant, due to growth in workforce size.

For example, total employee count of the 151 BSE 200 companies in the sample increased by 4.8 per cent Y-o-Y in FY24, reaching 5.1 million. Over the longer term, however, executive compensation has outpaced wage bill growth. Over the past five years, total salary and wage bill for these companies has grown at a compound annual rate of 11.4 per cent, trailing KMP remuneration’s CAGR by 150 basis points. KMP are responsible for key decisions and efficient operations within companies. They perform roles such as CEO, CFO, company secretary, and executive directors. The overall compensation figures in this analysis also include remuneration paid to independent directors, who do not hold executive positions. The study focuses on data from BSE 200 index companies, excluding government-owned entities.

Under the assured family pension component, the employee’s family will receive 60 per cent of the immediate pension upon their demise. The UPS includes an assured minimum pension of ₹10,000 per month upon superannuation after a minimum of 10 years of service.

# Financial firms...

This Trai directive is unlikely to impact HDFC Bank or its customers, according to sources. A banker at a private-sector bank said the Trai mandate applies to marketing content sent via SMS, typically containing links to websites or asking customers to download APKs. “Our SMEs are mostly alerts for customers, which do not include links. Additionally, our SMS service providers are aware of this regulation and are ensuring compliance,” he said. Experts indicated that financial institutions sending marketing content would face issues if they don’t adhere to the guidelines by August 31.

“The primary challenge lies in the operational aspect of whitelisting every communication link and number used by Bajaj Allianz General Insurance. This requires meticulous coordination with telecom operators and swift updates to our systems to ensure seamless communication post-registration,” said KV Dipu, senior president and head of operations & customer service, Bajaj Allianz. He said though this was a complex task, particularly in

terms of integrating and managing these lists across various communication channels, “we see it as an opportunity to refine our processes and strengthen our communication framework”.

“The key is to implement these changes without disrupting the customer experience. By working proactively with all stakeholders, we are confident we can overcome these challenges,” he said.

An insurance executive said there could be delays in communication between banks, financial institutions, and their customers if the registration process isn’t completed by the deadline. The process of registering and whitelisting messaging content might also introduce costs for telecom companies (telcos) telcos and businesses. Telcos may need to invest in technology and personnel, while businesses might incur fees for registration and compliance checks, he said.

Meanwhile, Rushabh Gandhi, managing director and chief executive officer of IndiaFirst Life, said, “All the content we send to our customers is distributed ledger technology-registered before it is sent. This is our default process.”

# GST Council meet to discuss rate rejig on Sep 9: FM

Discussing the upcoming GST Council meeting scheduled for September 9, Sitharaman said rate rationalisation would be on the agenda.

“However, no decision will be taken in the next meeting. The GoM will hold more meetings to finalise the report,” she said.

The UPS, effective from April 1 of 2025-26 will benefit over 2.3 million central government employees. The pension amount will be proportionate for shorter service periods, down to a minimum of 10 years.

The expenditure for arrears will be ₹800 crore with an annual cost increase of around ₹6,250 crore in the first year.

The scheme also includes two additional components: family pension and assured minimum pension.

Under the assured family pension component, the employee’s family will receive 60 per cent of the immediate pension upon their demise. The UPS includes an assured minimum pension of ₹10,000 per month upon superannuation after a minimum of 10 years of service.
